**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Specification***

1. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the language "comprising essentially" is confusing and is not conventional transitional claim language. The term "essentially" is normally appended to the claim transition term "consisting", which limits the scope of the claims to the specified materials or steps and steps that do not materially affect the basic and novel characteristics of the claimed invention. However, when used in combination with "comprising" which is used to broaden the claim, it is not clear if Applicant is broadening or narrowing the claim limitations.

It should be noted that the examiner phoned Mr. Gehris and left a message indicating that the claims would be allowable if the objectionable language is removed.

Art Unit: 1714

The examiner left a voicemail message on September 19, 2004; however, Mr. Gehris did not return the examiner's phone call.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wood (US 5,699,776) is cited for teaching mixing an oxidizer with fuel under high pressure. Radlein is cited for teaching reduction of nitrogen oxides of a flue gas.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cephia D. Toomer whose telephone number is 571-272-1126. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
